Akhilesh Soni

BACKEND DEVELOPER

akhileshsoni098@gmail.com | (+91) 9125292910

EXPERIENCE

EASYRYT | Backend Developer (Remote)
March 2023 – Present
- Developed and optimized backend systems for **e-commerce** and **AI applications** using **Node.js** and **AWS**, improving performance by 20%.
- Deployed and managed infrastructure on **AWS EC2**, storage on **S3**, and integrated **Cloudinary** for media handling.
- Integrated **OTP-based login**, **phone verification**, and secure payments via **Square**, increasing user sign-ups by 30%.
- Spearheaded the development of AI-based platforms using **OpenAI API** for natural language processing.
- Key projects include e-commerce platforms for **wine** and **meat selling**, driving revenue growth.

FUNCTIONUP | Backend Developer Trainee (Remote)
November 2022 – March 2023
- Built backend solutions using **Node.js**, **Express.js**, **MongoDB**, and **AWS** for projects like **URL Shortener**, **E-commerce App**, and **Movies App**, reducing response times by 15%.
- Integrated key tools including **JWT**, **Stripe**, **ExcelJS**, **Nodemailer**, and **Cloudinary** to enhance functionality.

PROJECTS

E-COMMERCE PLATFORM FOR WINE SELLING Node.js | AWS | Square
- Developed a platform with **add-to-cart**, **phone verification**, and **Stripe payment integration**.
- Implemented features like **order success**, **history tracking**, and **receipt generation**, increasing efficiency by 25%.

AI-POWERED NOTAAI APP Node.js | OpenAI API
- Created an AI app using **OpenAI API** for natural language processing with secure **email-based authentication**.
- Implemented **data restoration** and **auto-deletion** features, improving data security by 40%.

TNT: THE NEWS TALE Node.js | Content Management
- Developed backend for a news app with **dynamic category** and **subcategory management**.
- Built systems for **author management** and optimized **article publishing workflows**, increasing efficiency by 15%.

E-COMMERCE PLATFORM FOR MEAT SELLING Node.js | AWS | Stripe
- Built a platform with **phone verification**, **cart functionality**, and **pincode-based order booking**.
- Integrated **Stripe payment system** and features for **order tracking** and **receipt generation**, reducing manual handling by 30%.

EDUCATION

SIDDHARTH UNIVERSITY
Bachelor of Science (Physics)
June 2016 – July 2022 | 52.02%

M U CHAUDHARY IC
Intermediate
June 2015 – July 2016 | 80.40%

SVMHSS
High School
June 2014 – July 2015 | 82.00%

SKILLS

- JavaScript
- HTML
- CSS
- Node.js
- Express.js
- Socket.io
- Authentication
- Microservices (Basic)
- MongoDB
- Mongoose
- AWS (EC2, S3)
- Docker (Basic)
- CI/CD
- OpenAI API
- Square | Stripe Payments
- Cloudinary
- Redis
- Git
- VS Code
- Postman

AWARDS

Solved 100+ problems   LeetCode

LANGUAGES

English: Conversational
Hindi: Native/Fluent
